

Container Assignments

Container Assignment

You can click on the **Container assignments** to be able to assign any container in the system to users (Container, Filling and Defective Yard Managers and Loaders) and vehicles and respective drivers. In this **Actions** buttons can also choose the display view or assigned users and vehicles to the container.

If you click in the **Display** actions button for one container you can see if that container has assignments made, unassigned them if needed and reassigned them again. A container can only have one manager assigned but it can have multiple vehicles assigned.
