

2. How to Open/Close stock

When clocked in, as a Defective Yard Manager one needs to perform the opening stock take of the day. Similar to a container and filling manager. Therefore all products need to be counted and reported in the opening stock in the **Stock** tab:

Open Stock

KABATI Revalidation Yard

Product Overview

**13kg ProGas**

Empty • Defective

x 1 units

Empty • Suspected Defective

x 13217 units

**3kg SeaGas**

Empty • Suspected Defective

x 13584 units

**50kg ProGas**

Empty • Suspected Defective

x 9 units

POST STOCK

The defective yard manager is responsible for conducting a comprehensive stock count. This entails counting all the available stock and subsequently entering the respective quantities into the application. Once the stock quantities have been accurately recorded, the manager can proceed to close the stock.
