# 5. How to Report Defectives (Without Scanning)

The defective yard manager can report any cylinder that may look or actually is damaged. To do so, the user must navigate to the 'stock' tab and choose the option labelled 'Report Defective'.

Report Defective

Confirm Defectives

Close Stock

The defect will then be confirmed by the same user in a different step. When reporting defective items, the user is required to input specific information including the product type, state, and quantity. These details are crucial for accurately documenting and addressing the reported defects.
