

# Loaders

In this page we cover how Loaders can use the ProDistribution App in order to clock-in at their work station.

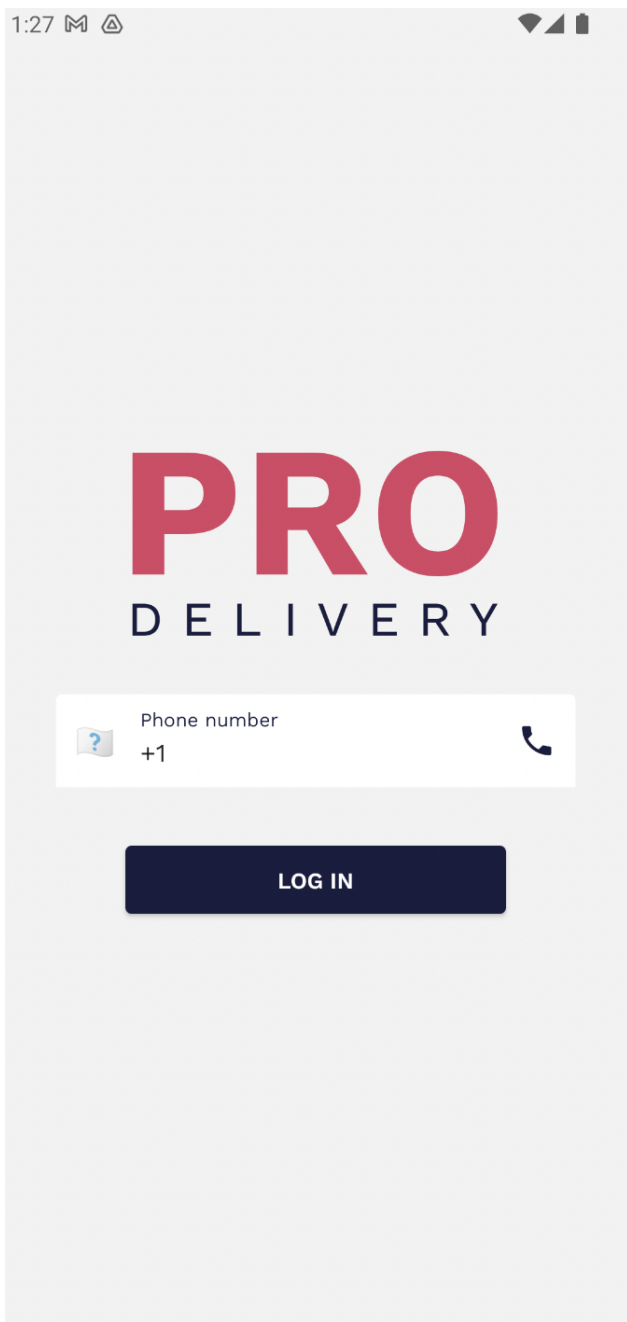

- Loader profile

# Loader profile

As loader, you will be able to use the **ProDelivery** app to:

- Log in
- Clock in
- Clock out
- Log out

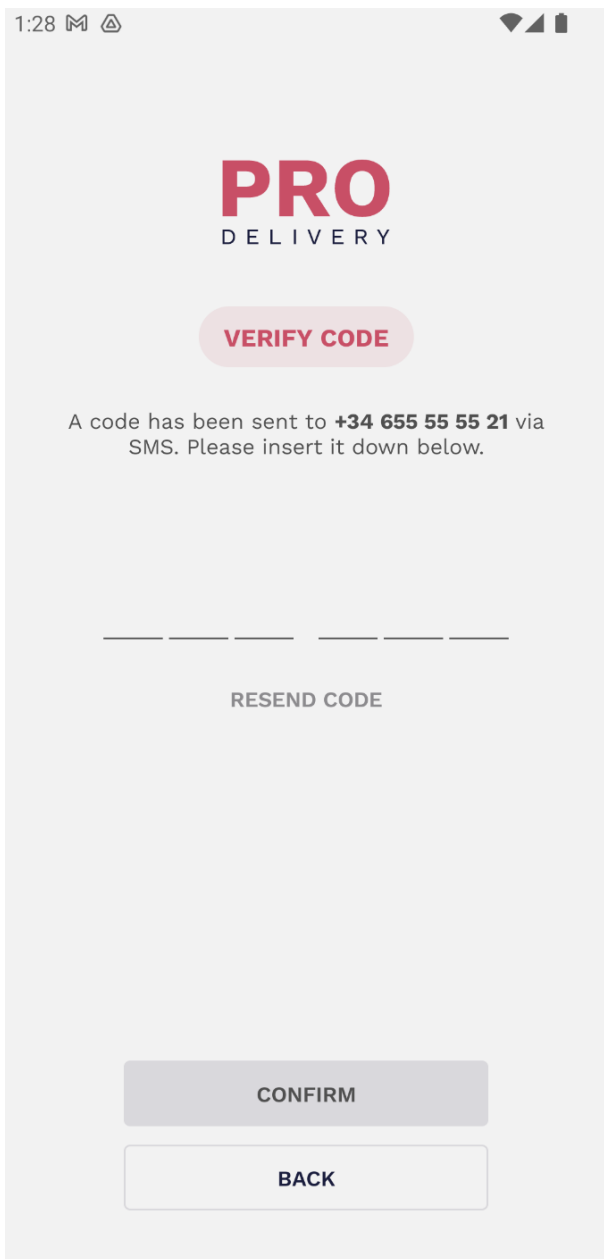

For **Login**, you will need to enter your phone number:

You will then be sent a one-time password to your phone via SMS.

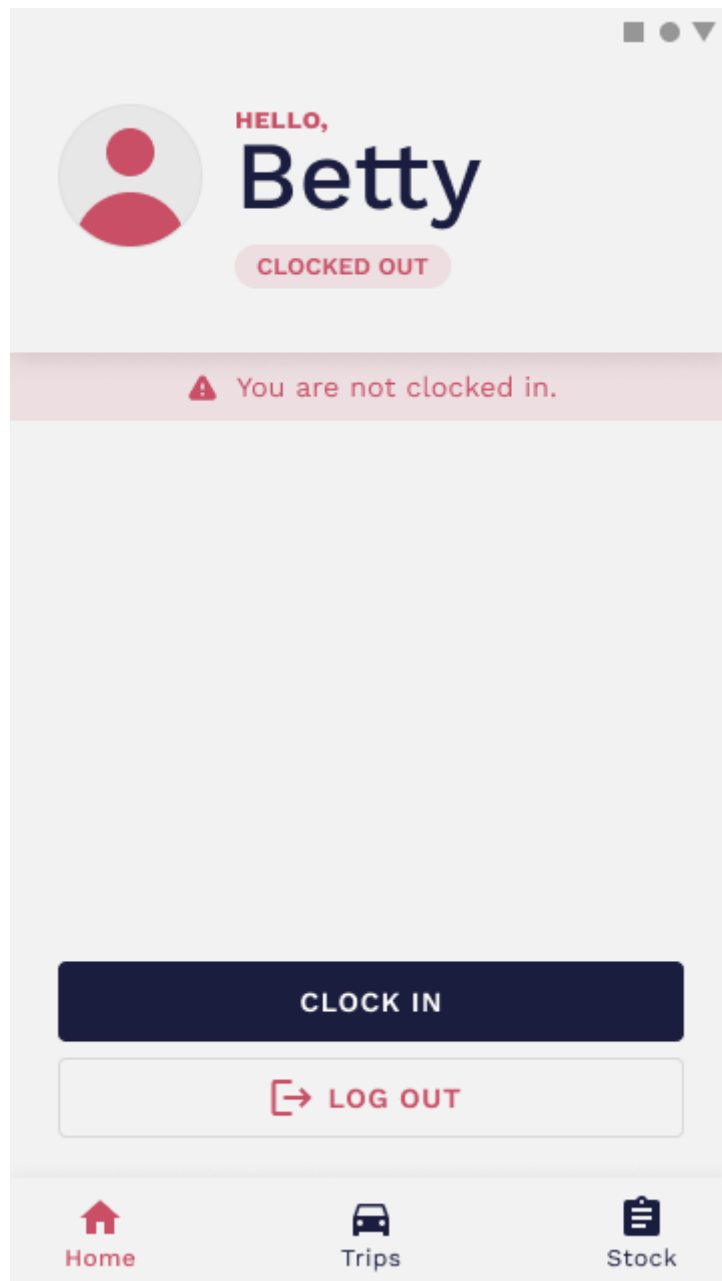

Enter that code on the screen below.

In case you have not received a code, click on the **Resend code** button or go **Back** and check if your phone number is the correct one.

When logged in you will see the below screen.

Clock in by clicking on the **Clock in** button.

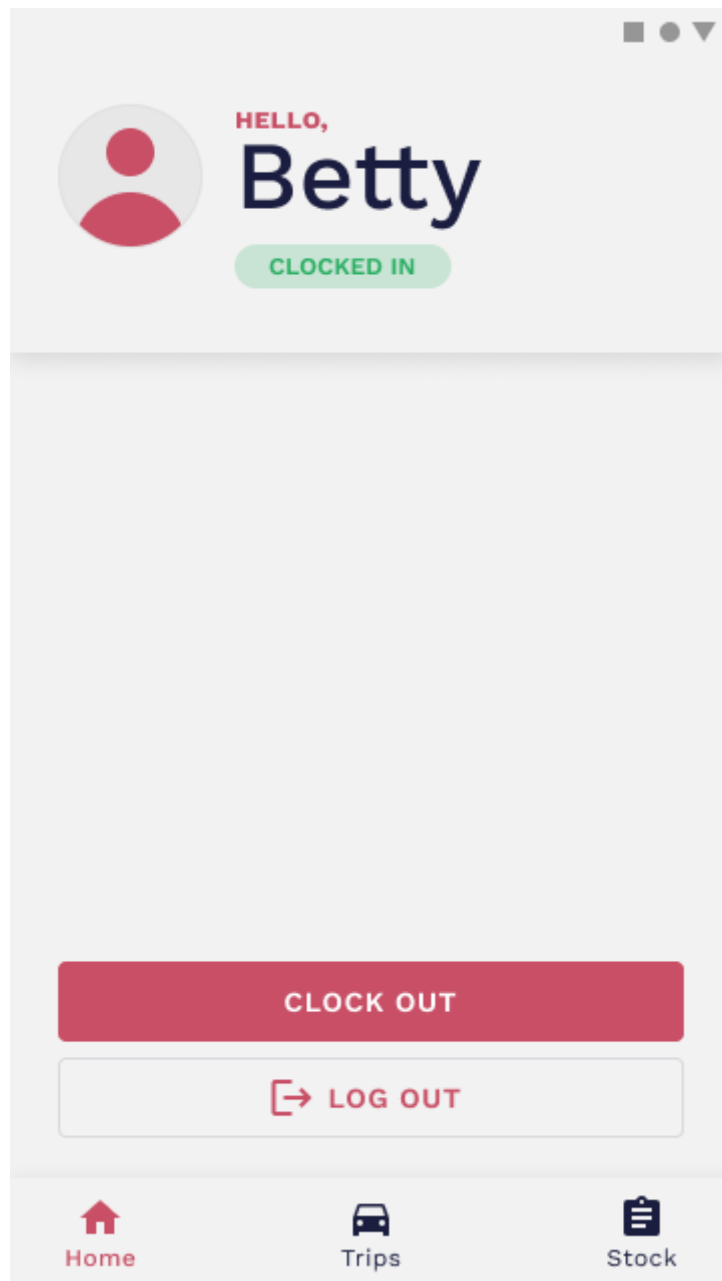

When you clock in your status changes to "clocked in". This is visible to your supervisors.

When you clock in your current location will also be sent to geofence your working station.

After your shift please clock out by clicking on the **Clock out** button.

When clicking **Log out** you will also be clocked out automatically.

When logging out you will be asked if you "are sure to log out". Please click on **Proceed** and you will be logged out.

HELLO,

Romy
