

1. Sell Products

As a shop manager you can sell products if you are assigned to a container which is labelled as 'shop'. To do so, go to the shop tab in the APP and select 'Sell Products'.

On the next page, you should input the customer's name as well as the product type and quantity.

Before selling, you need to scan the products, to do so, click 'scan' after inputting the quantities.

If the sale is a **refill**, you must scan both the empty cylinder to be filled and the full cylinder being used for filling. If the sale is **outright**, then you must only scan the full cylinder which is being sold.

CONFIRM SELL

The next step would be to input the payment details (Invoice, Bank Transfer or M-PESA)

Once the payment code is verified and confirmed, you can return to the shop to continue making sales.
